INDEPENDENT AUDITORS' REPORT

To the Board of Directors Lake Cumberland Area Development District Russell Springs, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lake Cumberland Area Development District (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Lake Cumberland Area Development District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of Lake Cumberland Area Development District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Page 1

Emphasis of Matter – Change in Reporting Model

As discussed in Note 1 to the financial statements, effective July 1, 2019, the District changed its reporting model in order to better conform to the reporting requirements of the Governmental Accounting Standards Board (GASB). This change required a restatement of net position as of July 1, 2019. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 7, budgetary comparison schedules on pages 32 and 33, and Pension and OPEB Schedules on pages 34-37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedules of shared costs and statements of operations and combining statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of shared/indirect costs, cost allocation policy, statement of operations by program, other information, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of shared costs and statements of operations and combining statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2020, on our consideration of Lake Cumberland Area Development District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lake Cumberland Area Development District's internal control over financial reporting and compliance.

Campbell, Myers & Ratledge, PLLC

Glasgow, Kentucky November 11, 2020 The management's discussion and analysis provides an overview of Lake Cumberland Area Development District's financial performance during the fiscal year 2020. Please read the following in conjunction with the District's audited financial statements. A comparative analysis has been presented as a single fund, special-purpose government.

OVERVIEW OF THE ANNUAL REPORT

This annual report includes the management's discussion and analysis, the independent auditor's report, the District's audited financial statements, and notes to the financial statements. The notes to the financial statements explain in detail some of the information in the financial statements.

REQUIRED FINANCIAL STATEMENTS

The District's financial statements utilize the full accrual basis of accounting. Also, the financial statements conform to generally accepted accounting principles and guidelines set forth by the Governmental Accounting Standards Board as it relates to a single fund special-purpose government. The required financial statements are the District's statement of net position, statement of revenue, expenses and changes in net position and a statement of cash flows. The District does not utilize multiple funds in accounting for its financial activities; therefore, only fund type statements are presented. The statement of net position details the District's investments (assets), debts (liabilities), and net position (net assets).

FINANCIAL ANALYSIS OF THE DISTRICT

	FY 2020		FY 2019	Change
Current Assets	\$ 5,358,633	\$	4,228,862	\$ 1,129,771
Capital and Other Assets	2,471,067		3,537,024	(1,065,957)
Deferred Outflows of Resources	 2,077,112		1,805,537	 271,575
Total Assets & Deferred				
Outflows of Resources	\$ 9,906,812	<u>\$</u>	9,571,423	\$ 335,389
Current Liabilities	\$ 483,865	\$	452,519	\$ 31,346
Long Term Liabilities	10,450,943		9,369,374	1,081,569
Deferred Inflows of Resources	 1,173,606		1,275,975	 (102,369)
Total Liabilities & Deferred				
Inflows of Resources	 12,108,414		11,097,868	 1,010,546
Net Position				
Net Investment in Capital assets	\$ 624,932	\$	667,313	\$ (42,381)
Restricted	1,372,158		1,356,171	15,987
Unrestricted	 (4,198,692)		(3,549,929)	 (648,763)
Total Liabilities, Deferred Inflows				
of Resources & Net Position	\$ 9,906,812	\$	9,571,423	\$ 335,389

The Condensed Statement of Net Position reveals the following changes for the fiscal year 2020:

The statement of revenue, expenses and changes in net position had the following changes:

	FY 2020	FY 2019		Change
Operating Revenues				
Federal	\$ 6,459,799	\$	6,496,046	\$ (36,247)
State	1,513,190		1,672,180	(158,990)
In-Kind	82,277		64,634	17,643
Other and Local	 1,249,185		1,173,753	 75,432
Total Operating Revenues	 9,304,451		9,406,613	 (102,162)
Operating Expenses				
Salaries and Fringe	4,687,592		3,935,135	752,457
Subgrantees and Contractual	3,102,789		3,574,903	(472,114)
Other	 2,212,656		2,239,025	 (26,369)
Total Operating Expenses	 10,003,037		9,749,063	 253,974
Operating Income	 (698,586)		(342,450)	 (356,136)
Non-Operating Income (Expense)				
Bank Interest Income	43,709		12,745	30,964
Interest Expense	 (20,280)		(21,024)	 744
Total Non-Operating Income	 23,429		(8,279)	 31,708
Change in Net Position	(675,157)		(350,729)	(324,428)
Net Position, Beginning of Year	 (1,526,445)		(1,175,716)	 (350,729)
Net Position, End of Year	\$ (2,201,602)	\$	(1,526,445)	\$ (675,157)

The significant change in net position is directly related to the implementation of GASB Statement 68 and 75 which requires the District to report its proportionate share of the unfunded liability of the CERS pension and OPEB plans which the District participates in.

NOTES RECEIVABLE, RLF

The District, in order to stimulate economic development and assist businesses in obtaining and acquiring low interest rate loans, has chosen to participate in the Revolving Loan Program. Through a federal grant and local funding, the District created a loan program for the before mentioned reasons. The loans are repaid from payments collected from borrowers. Loan balances at June 30, 2020 totaled \$902,027compared to \$787,174 in 2019.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CAPITAL ASSETS

The District acquired an additional vehicle in fiscal year 2020. The district retired two vehicles which were completely depreciated. Accumulated depreciation had a net increase of \$29,735 from fiscal year 2019 to fiscal year 2020, leaving a remaining balance of \$1,083,973 in net capital assets.

Capital Assets	Balance June 30, 2019	Increases	Decreases	Balance June 30, 2020
•				
Land	\$ 70,000	\$-	\$-	\$ 70,000
Buildings	1,868,132	-	-	1,868,132
Equipment and Vehicles	602,951	26,834	(43,979)	585,806
Total	2,541,083	26,834	(43,979)	2,523,938
Accumulated depreciation	(1,410,230)	(73,714)	43,979	(1,439,965)
Net Capital Assets	\$ 1,130,853	\$ (46,880)	\$-	\$ 1,083,973
•		,		

LONG-TERM DEBT

Notes payable consists of one remaining loan which was obtained by LCDC from USDA Rural Development for various buildings upgrades and equipment additions. There were no new loans for the year ended June 30, 2020.

Balance			Balance
<u>June 30, 2019</u>	Additions	Payments Payments	June 30, 2020
<u>\$ 463,540</u>	<u>\$</u>	<u>\$ (7,762</u>)	<u>\$ 455,778</u>

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District considers many factors when setting the fiscal year 2020 budget. The most significant factor is the uncertainty of state and federal funding. At the start of fiscal year 2019, several of our state contracts had not been finalized due to budget uncertainty. We are speculating that many of our federal and state revenues will remain relatively level. Our Medicaid PDS program should be able to maintain revenues if not grow.

Workforce Innovation and Opportunity Act

WIOA formula funding for Adults decreased from \$1,163,114 in FY-19 to \$981,805 in FY-20 for a decrease of 15.4%. This is an \$181,309 decrease. WIA formula funding for Dislocated Workers decreased from \$806,024 in FY-19 to \$716,257 for FY-20 for a decrease of 11.1%. This is a \$89,766 decrease. WIOA formula funding for Youth services increased from \$916,061 in FY-19 to \$958,801 in FY-20 for an increase 4.5%. This is a \$42,739 increase. Funding for Trade training was received \$290,000 in FY-20 to support Trade participants. This is a 58.6% decrease due to lower number of participants in the Trade program. The Adult, Dislocated Worker and Youth funding amounts continue to fluctuate due to Federal Funding and the unemployment rates across the state with dictates the proration of funding.

Rapid Response Funds were received in the amount of \$75,000 FY-20 for Trade Case Management.

Special funding awards during FY-20, \$150,500 was received through Statewide Reserve Dollars to serve Youth Work Experience participants. Also, \$32,067 was received through Statewide Reserve funds for a training program with KECH. And \$182,077 was rescinded by the state in Medicaid funding.

LCADD continued with contracts from Lincoln Trail Area Development District (LTADD) to serve as the One-Stop Operator and Direct Service Provider under WIOA. LCADD received \$110,500 in reimbursement for LTADD with \$5,918 being LCADD Administration thru the contract for the One-Stop Operator contract and \$300,396 in reimbursement thru the Direct Services contract with \$26,863 being LCADD Administration. LCADD currently has 4 employees thru these contracts.

LCADD Workforce Department had no new employees during FY-20. Three individuals were contracted thru temp services. As of June 30, 2020 only one remained.

Planning Department

During FY-19, the LCADD Planning Department had an income totaling \$177,076 through contracts with the Kentucky Transportation Cabinet, and the Kentucky Infrastructure Authority. Contracts for FY-20 total \$180,076 which is a 1.7% increase over the previous year.

These contracts are as follows:

Transportation Planning	\$78,065
Water and Wastewater Planning	76,000
Local Road Updates	21,000
Local Contracts	5,000
Total:	<u>\$180,075</u>

With no cuts in revenue, and cuts in staffing and reductions in insurance and other costs, the Planning Department budget has begun to stabilize over the last year. With the addition of several smaller local contracts, the Planning Department will be in a better position to support itself over the next fiscal year.

Aging and Independent Living

Lake Cumberland Area Agency on Aging and Independent Living (LCAAAIL) FY'20 budget was \$2,418,792, this was an increase of \$1,569 (0.1%) from FY'19 amount of \$2,417,233.

During FY'20 funds were received to furnish meals and services to eligible individuals that were 60 and over due to the Covid-19 pandemic. Funds of \$211,975 was receive from the Covid Relief Fund and \$245,116 was received from Cares Act.

During FY20 the Aging Dept. experienced the turnover of one Independent Care Coordinator/Case Manager. There are no current vacancies.

MANAGEMENTS DISCUSSION AND ANALYSIS, CONCLUDED

The shifting of responsibilities for data input in SAMS to the senior citizen directors was completed. However, due to Covid-19 pandemic Social Services Assistants resumed entering units into SAMS. The realignment of duties continues to allowed the data entry clerk to be more available as an Aging and Disability Resource Operator and to cross train in the role of a social services assistant. This process was slowed due to the Covid-19 pandemic.

One Social Service Assistant continues to do data input in SAMS on behalf of the senior citizen directors in several counties, as the COVID-19 meals ends realignment in FY'21 will free the SSA to focus on case management duties.

Due to the Covid-19 pandemic, Aging Case Managers had to stop making in home visits and instead did followup and assessment via phone. This will continue until further notice from the Department of Aging and Independent Living.

Community & Economic Development

In FY 2020, staff had administration contracts for a number of projects. There were six projects completed during FY 2020 and four new loans closed in the Revolving Loan Fund program.

There are 18 on-going projects as of June 30, 2020. Staff has prepared 26 applications for potential new projects.

Two department staff members have retired this fiscal year. One has been brought back on a contract basis and a part-time staff member added.

FY20 RLF Write-Offs

There were no loans written-off during fiscal year ended June 30, 2020.

The accompanying notes are an integral part of the financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity - The Lake Cumberland Area Development District (the District) is a non-profit governmental corporation formed pursuant to KRS Chapter 147A which has as its primary purpose, the promotion of economic development and the establishment of a framework for joint federal, state and local efforts directed toward providing basic services and facilities essential to the social, economic and physical development of a ten-county area in the Lake Cumberland region of Kentucky. The District as an association of local governments that work together to solve common problems through a regional approach. The district creates a network from citizens to local elected officials through state agencies to the governor and appropriate federal agencies.

Blended Component Unit – The financial statements present the District (the primary government) and its blended component unit, Lake Cumberland Development Council, Inc. (LCDC). As defined by GASB Statement No. 14, component units are legally separate entities that are included in the District's reporting entity because of the significance of their operating or financial relationships with the District. The financial statements of the Lake Cumberland Development Council, Inc., are blended into these financial statements because the LCDC has the same board of directors as the District and its operations are for the exclusive benefit of the District. The LCDC is included as an enterprise fund on the District's financial statements.

Basis of Presentation - The District's financial statements conform to the provisions of the Governmental Accounting Standards Board codification section 2600, as it relates to special-purpose governments.

During the year ended June 30, 2020, the District's management completed an assessment of the District's operations and determined that a change in reporting model should be made to better conform to the reporting requirements established by GASB.

The following is a summary of the basis of presentation.

Government-wide Financial Statements – The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the overall financial activities of the District. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Government-wide Statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the District-wide Statements and the statements for governmental funds

In the District-wide Statement of Net Position and Statement of Activities both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic assets are used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. District expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or government function is self-financing or draws from the general revenues of the District. The District allocates certain indirect costs to be included in the program expenses reported for individual functions and activities in the Government-wide Statement of Activities.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a Balance Sheet, which generally includes only current assets and current liabilities, and a Statement of Revenues, Expenditures and Changes in Fund Balances, which reports on the changes in net position. Proprietary funds and fiduciary funds are reported using the economic resources measurement focus. The Statement of Cash Flows provides information about how the District finances and meets the cash flow needs of its proprietary activities. The District has the following funds:

- I. <u>Governmental Fund Types</u>
 - a. The General Fund is the primary operating fund of the District and is always classified as a major fund. It accounts for financial resources used for general types of operations. This is a budgeted fund, and any unrestricted fund balances are considered resources available for use.
 - b. The Special Revenue (Grant) Fund accounts for proceeds of specific revenue sources that are legally restricted to disbursements for specified purposes. It includes federal financial programs where unused balances are returned to the grantor at the close of the specified project periods as well as the state grant programs. Project accounting is employed to maintain integrity for the various sources of funds. The Special Revenue Fund includes JFA (Joint Funding Agreement), WIOA (Workforce Innovation and Opportunity Act), Aging, Transportation and other grant programs. The separate projects of federally funded grant programs are identified in the Schedule of Expenditures of Federal Awards included in this report. This is a major program of the District.
- I. Proprietary Fund Types (Enterprise Fund)
 - a. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost of providing goods and services to the general public on a continuing basis will be recovered primarily through user charges. Both the Revolving Loan Fund (RLF) and the blended component unit of the District, Lake Cumberland Area Development Council (LCDC), are enterprise funds of the District.

District-wide Financial Statements – Net Position

The District's Net Position is classified and displayed in three components:

- Invested in Capital Assets, Net of Related Debt Consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributed to the acquisition, construction or improvement of those assets.
- Restricted Net Position Consists of net position with constraints placed on the use either by 1) external groups such as creditors, grantors or laws or regulations, or 2) law through constitutional provisions or enabling legislation.
- Unrestricted Net Position All other net positions that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Fund Financial Statements

The District separates its fund balance into five categories under GASB 54.

- Non-spendable Permanently non-spendable by decree of donor, such as an endowment, or items which may not be used for another purpose, such as amounts used to prepay future expenses or already purchased inventory on hand.
- Restricted Legally restricted under federal or state law, bond authority, or grantor contract.
- Committed Commitments passed by the Board of the District.
- Assigned Funds assigned to management priority including issued encumbrances
- Unassigned Funds available for future operations.

Basis of Accounting – Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The financial statements are prepared on a full accrual basis.

Revenue Recognition Policies - The District recognizes revenue on the accrual basis of accounting. Grant and contract revenue is recognized as eligible expenses are incurred. Revenue is recognized on performance contracts upon the completion of agreed upon services.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the District's policy is to first apply restricted assets. Costs for all programs (including those programs outside of the Joint Funding Administration (JFA) have been accounted for under the accounting system prescribed by the JFA. Indirect expenses have been allocated to JFA program elements and other programs on the basis of direct salary and fringe costs as allocated per employee's time records. Non-federal matching contributions are applied to individual programs on the basis of total expenses incurred on the program and the sharing ratio specified in the program agreement.

Non-Operating Income – The District recognizes investment income as non-operating income. All other income is recognized as operating income.

Deferred Revenue – Deferred revenue arises when funds are received before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenue.

Cash and Cash Equivalents – For purposes of the statement of cash flows, the District defines cash and cash equivalents as cash in banks, funds in overnight repurchase agreements and any highly liquid investments with initial maturities of 90 days or less.

Fixed Assets – The District does not hold any buildings, property or equipment. All such items are instead held in the Development Council. Buildings, property and equipment are stated at cost and depreciated over their estimated useful lives of three (3) to forty (40) years using the straight-line method of depreciation. Property and equipment include furniture, office equipment, vehicles and leasehold improvements. Depreciation expense is charged to both direct and shared costs as rental expense. The shared cost portion is allocated to the various grants using the approved cost allocation plan.

Budgeting – The District is not required to adopt a legal budget in the manner of most local governmental entities. The budget is an operational and management tool that ensures the maximum use of resources. The budget is approved by the board of directors and monthly reports are presented to the board and management using budget comparisons.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONCLUDED

In-Kind - In-kind contributions included in the accompanying financial statements consist of donated volunteer time, facilities or services.

Compensated Absences - Employees of the District accrue sick leave at the rate of 1 ¼ days per month. Sick leave that may be accrued is unlimited. Sick leave is forfeited upon termination of employment. Employees retiring under the CERS retirement system will receive credit for accrued but unused sick leave up to 120 days. Annual leave (vacation) earned is based on seniority at the rates of 12 to 24 days per year and can be carried forward from one year to the next. A maximum of 30 days may be carried forward. All days in excess of 30 are converted to sick. The District pays the balance of vacation upon separation with an employee. The accrued liability for accumulated annual leave as reported on the statement of net position at June 30, 2020 is \$266,217.

Rentals/Component Unit – The District leases its office facilities, equipment and automobiles from the LCDC (included within the accompanying financial statements). The District paid approximately \$180,000 in rentals for the year ended June 30, 2020. Total annual rentals are based upon operating expenses of the LCDC.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allowance of Loan Losses – The allowance for loan losses for the Revolving Loan Fund is maintained at a level, considered by management, to be adequate to provide for loan losses inherent in the loan portfolio. Management determines the adequacy of the allowance based upon a review of the individual debtor credit, recent loss experience and current economic conditions. The allowance is increased by the provision for loan losses and reduced by net charge-offs. There is no allowance for loan los as of June 30, 2020. Any provision is recorded as other direct expense in the combining schedule of operations by program and supporting services.

2. CASH AND INVESTMENTS

At year end, the carrying amount of the District's cash deposits and investments was \$4,123,458 and the bank balance was \$4,417,739. The difference between book and bank balances primarily represents checks that have been issued, but have not cleared the bank as of June 30, 2020. These amounts were covered by Federal Depository Insurance or by securities pledged by financial institutions.

Interest Rate Risk:

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Currently the District has certificate of deposits with interest rates varying from 1% to 2% with maturity dates ranging from three to twelve months.

3. GRANTS RECEIVABLE

Federal, state and local grants receivable consists of the following at June 30, 2020:

WIOA	\$ 369,276
Aging	641,249
Other programs	 441,360
Total grants receivable	\$ 1,451,885

4. LOANS RECEIVABLE

The District has established the following loan program to assist businesses in its district:

Revolving Loan Fund (RLF) – established by initial grants from the Economic Development Administration to assist high-risk small businesses in local area communities.

Revolving Loans	\$ 1,825,229
Less; Loan Repayments	 (658,683)
Total Outstanding Loans	1,166,546
Less: Allowance for Bad Debts	 -
Net Loans Receivable	\$ 1,166,546

Loans program receivables and the related cash balances are shown as restricted assets on the statement of net position because they cannot be used for the general operation of the District. Loan bad debts are charged to operations in the period they become uncollectible. There are no write off's in the current year.

5. CAPITAL ASSETS

The Development Council maintains buildings, property and equipment used for the District operations. Fixed assets are stated at cost and depreciated over their estimated useful lives of three (3) to forty (40) years using the straight-line method of depreciation. Property and equipment include furniture, office equipment, vehicles and leasehold improvements. Depreciation expense totaled \$73,714, for the year ended June 30, 2020. The following summarizes the changes in fixed assets during the year ended:

В	alance						Balance

	\$	455,778	\$	357,902	\$	813,680	

The following is a change in notes payable for the year ended June 30, 2020:

	<u>Balance</u> June 30, 201	9 <u>Additions</u>	Payments	Balance June 30, 2020
Notes Payable	<u>\$ 463,54</u>	<u> </u>	<u>\$ (7,762</u>)	\$ 455,778

7. OPERATING LEASE

The District leases its offices, equipment and vehicles from the Lake Cumberland Development Council. Rents are determined by the operating needs of the Development Council. Rent expense varies from year to year. The arrangement is designed for the Development Council to operate with minimal profit.

8. PENSION PLAN

The District participates in the County Employee Retirement System (CERS), a cost-sharing multipleemployer retirement system administered by the Board of Trustees of the Kentucky Retirement Systems (KRS). CERS is a defined benefit plan created by the Kentucky General Assembly. The Plan covers substantially all full-time employees. The Plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost of living adjustments are provided at the discretion of the State legislature. Benefits fully vest upon reaching 5 years of service and are established by state statute. Benefits of CERS members are calculated on the basis of age, final average salary, and service credit. For retirement purposes, employees are grouped into three tiers, based on hire date:

Tier 1	Participation date Unreduced retirement Reduced retirement	Before September 1, 2008 27 years service or 65 years old At least 5 years service and 55 years old or At least 25 years service and any age
Tier 2	Participation date Unreduced retirement	September 1, 2008 - December 31, 2013 At least 5 years service and 65 years old
	Reduced retirement	Or age 57+ and sum of service years plus age equal 87 At least 10 years service and 60 years old
Tier 3	Participation date Unreduced retirement	After December 31, 2013 At least 5 years service and 65 years old
	Reduced retirement	Or age 57+ and sum of service years plus age equal 87 Not available

Cost of living adjustments are provided at the discretion of the General Assembly. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components.

CERS issues a stand-alone financial report, which may be obtained from Kentucky Retirement System, 1260 Louisville Road, Frankfort, Kentucky, 40601 or on-line at <u>www.kyret.ky.gov</u>.

Participating employees become eligible to receive the health insurance benefit after at least 180 months of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty-related death.

Contributions - Required contributions by the employee are set by statute and may be changed only by Kentucky General Assembly. Current rates are based on the employee tier:

	Required Contribution
Tier 1	5%
Tier 2	5% + 1% for insurance
Tier 3	5% + 1% for insurance

Employer contribution rates for CERS are determined by the KRS Board without further legislative review. The methods used to determine the employer rates for KRS are specified in Kentucky Revised Statute 61.565. House Bill 362 was enacted in the 2018 legislative session that limits the annual increase in the CERS employer contribution over the prior fiscal year to 12% per year for the period July 1, 2018 to June 30, 2028, or until the full actuarial required contribution is met.

8. PENSION PLAN, CONTINUED

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability for CERS of \$7,858,232.

The net pension liability for each plan was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The total pension liability was rolled forward from the valuation date to the plan's fiscal year ending June 30, 2019, using generally accepted actuarial principles.

The District's proportion of the net pension liability for CERS was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2019, the District's proportion was .111733%.

For the year ended June 30, 2020, the District recognized pension expense of \$1,309,868. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Ir	Deferred Inflows of Resources
Difference between expected and actual experience	\$	200,644	\$	33,202
Net difference between projected and actual earnings on pension plan investments		150,847		277,525
Changes in assumptions		341,780		-
Changes in proportion and differences between employer contributions and proportionate share of contributions		70,282		157,203
District contributions subsequent to the measurement date		553,167		
	\$	1,316,720	\$	467,930

The fiscal year 2020 CERS employer contributions are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows and deferred inflows related to pensions will be amortized over five years or by the average service life and recognized as an increase or decrease in pension expense as follows:

	Net Deferred			
	Outflows (Inflows)			
2021	\$	195,360		
2022		91,275		
2023		8,987		
Total	\$	295,622		
	<u>+</u>			

8. PENSION PLAN, CONTINUED

Actuarial assumptions: The actuarial assumptions are as follows:

Inflation	2.30%
Payroll Growth Rate	2.00%
Investment rate of return, net of investment	
expense and inflation	6.25%

There have been no changes in plan provisions since June 30, 2018. However, the Board of Trustees has adopted new actuarial assumptions since June 30, 2018. These assumptions are documented in the report titled "Kentucky Retirement Systems 2018 Actuarial Experience Study for the Period Ending June 30, 2018." The total pension liability as of June 30, 2019 was determined using these updated assumptions.

Mortality rates used for active members is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back one year for females). The RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back four years for males) is used for the period after disability retirement.

The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. The most recent analysis, performed for the period covering fiscal years 2014 through 2018, is outlined in a report dated April 18, 2019. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

8. PENSION PLAN, CONCLUDED

The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the tables below.

		Long-term
	Target	expected real
Asset Class	Allocation	rate of return
US Equity	18.75%	4.30%
Non-US Equity	18.75%	4.80%
Private Equity	10.00%	6.65%
Specialty Credit/High Yield	15.00%	2.60%
Core Bonds	13.50%	1.35%
Cash	1.00%	0.20%
Real Estate	5.00%	4.85%
Opportunistic	3.00%	2.97%
Real Return	<u>15.00%</u>	4.10%
	100.00%	

Discount rate—the discount rate used to measure the total pension liability was 6.25%. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 24-year closed amortization period of the unfunded actuarial accrued liability. The discount rate determination does not use a municipal bond rate. The target asset allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the CAFR.

The following table presents the net pension liability of the District, calculated using the discount rates selected by CERS, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower and 1-percentage point higher than the current rate.

		Curr	ent Discount	
	1% Decrease		Rate	<u>1% Increase</u>
CERS	5.25%		6.25%	7.25%
District's proportionate share				
of net pension liability	\$ 9,828,419	\$	7,858,232	\$6,216,100

Pension plan fiduciary net position—detailed information about the pension plan's fiduciary net position is available in the separately issued financial report of CERS.

Non-hazardous position employees are required to contribute 5% of gross compensation to the plan. The Board of Trustees of KRS also determines the District's required contribution annually 19.30% pension and 4.76% OPEB for the year ended June 30, 2020. For the year ended June 30, 2020 the District's total covered payroll was approximately \$2,872,000. The District contributed approximately \$689,600 in 2020 for both pension and OPEB and employees contributed approximately \$152,700 to the plan.

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Kentucky Retirement Systems provides participants their proportionate share of the OPEB unfunded liability calculated by Gabriel, Roeder, Smith & Co (GRS) to be used in financial reports. KRS issues a stand-alone financial report, which may be obtained from Kentucky Retirement System, 1260 Louisville Road, Frankfort, Kentucky, 40601 or on-line at www.kyret.ky.gov

Plan Description: The Kentucky Retirement Systems' Insurance Fund is a cost sharing multiple-employer defined benefit Other Post-Employment Benefit plan for members that cover all regular full-time members employed in non-hazardous and hazardous duty positions of any state departments, board, agency, county, city, school board, and any additional eligible local agencies electing to participate.

Benefits Provided: The plan was established to provide hospital and medical insurance for eligible members receiving benefits from KERS, CERS and SPRS. OPEB may be extended to beneficiaries of plan members under certain circumstances. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. KRS submits the premium payments to DEI. The Board contracts with Humana to provide health care benefits to the eligible Medicare retirees through a Medicare Advantage Plan.

There have been no changes in plan provisions since June 30, 2018. However, the Board of Trustees has adopted new actuarial assumptions since June 30, 2018. These assumptions are documented in the report titled "Kentucky Retirement Systems 2018 Actuarial Experience Study for the Period Ending June 30, 2018." The total OPEB liability as of June 30, 2019 is determined using these updated assumptions.

Contributions: The Insurance Fund pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance. As a result of House Bill 290, medical insurance benefits are calculated differently for members who began participating on, or after July 1, 2003. Once members reach a minimum vesting period of 10 years, non-hazardous employees whose participation began on, or after July 1, 2003, earn \$10 per month for insurance benefits at retirement for every year of earned service without regard to maximum dollar amount. Hazardous employees whose participation began on or after July 1, 2003, earn \$15 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. Upon death of a hazardous employee, the employee's spouse receives \$10 per month for insurance benefits for each year of the deceased employee's earned hazardous service. This dollar amount is subject to adjustment annually, which is currently 1.5%, based upon Kentucky Revised Statutes. See chart for current values for Dollar Contribution. This benefit is not protected under the inviolable contract provisions of Kentucky Revised Statute 16.652, 61.692 and 78.852. The Kentucky General Assembly reserves the right to suspend or reduce this benefit if, in its judgment, the welfare of the Commonwealth so demands. The amount of contribution paid by the Insurance Fund is based on years of service. For members participating prior to July 1, 2003, years of service and respective percentages of the maximum contribution are as follows:

Portion Pa	id by Insurance Fund	Dollar Contribut	ion for Fiscal Year 2019
Years of Service	Paid by Insurance Fund (%)	For Member participation	on date on or after July 1, 2003
20+ years	100.00%	<u>System</u>	(in whole dollars)
15-19 years	75.00%	KERS Non-hazardous	\$13.38
10-14 years	50.00%	KERS Hazardous	\$20.07
4-9 years	25.00%	CERS Non-hazardous	\$13.38
Less than 4 years	0.00%	CERS Hazardous	\$20.07
		SPRS	\$20.07

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB), CONTINUED

Future contributions are projected in accordance with the Board's current funding policy, which includes the requirement that each participating employer in the System contribute the actuarially determined contribution rate, which is determined using a closed funding period (24 years as of June 30, 2019) and the actuarial assumptions and methods adopted by the Board of Trustees. The fully insured premiums KRS pays for the CERS health insurance plans are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing it to active employees, there is an implicit employer subsidy for the non-Medicare eligible retirees. Current assets, future contributions, and investment earnings are projected to be sufficient to pay the projected benefit payments from the retirement system. However, the cost associated with the implicit subsidy is not currently being included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System's trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The distributions from the retiree health insurance trust pay the employers' portion of the blended premiums, not the employers' portion of the underlying retiree claims costs. As a result, the benefit payments and contribution amounts need to include an adjustment related to the implicit subsidy. Participating employers adjust their contributions by the implicit subsidy in order to determine the total employer contribution for GASB 75 purposes.

At June 30, 2020, the District reported a liability of \$1,878,811 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018. At June 30, 2019, the District's proportionate share was .111704%.

As a result of its requirement to contribute to the Plan, the District recognized OPEB expense of \$72,461 for the year ended June 30, 2020 and reported deferred inflows and deferred outflows of resources from the following sources.

	 red Outflows Resources	 erred Inflows Resources
Differences between expected and actual experience	\$ -	\$ 540,236
Changes of assumptions	555,958	3,718
Net difference between projected and actual earnings on Plan investments	12,375	95,824
Change in proportion and differences between employer contribution and proportionate share of plan contribution	15,289	65,898
District contributions subsequent to the measurement date	 176,770	 _
	\$ 760,392	\$ 705,676

The deferred outflows resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows and deferred inflows of resources will be recognized in expense as follows:

	Net Deferred
Year Ended	Outflows/(Inflows)
June 30, 2021	\$ (26,645)
June 30, 2022	(113)
June 30, 2023	(50,909)
June 30, 2024	(38,653)
Thereafter	 (5,734)
	\$ (122,054)

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB), CONTINUED

Actuarial Assumptions: The total OPEB liability, net OPEB liability and sensitivity information are based on an actuarial valuation performed as of June 30, 2018. The total OPEB liability was rolled-forward from the valuation date to the plan's fiscal year end, June 30, 2019 using generally accepted actuarial principles. The KRS Board of Trustees adopted the following updated actuarial assumptions used in performing the actuarial valuation as of June 30, 2018.

Assumed investment return	6.25%
Inflation factor	2.30%
Payroll growth	2.00%

Mortality rates were based on the RP-2000 Combined Mortality Table, projected to 2013 with Scale BB (set back 1 year for females).

The long-term expected rate of return was determined by using a building-block method in which the bestestimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the following table.

	Target	Long-term expected real
Asset Class	Allocation	rate of return
US Equity	18.75%	4.30%
Non-US Equity	18.75%	4.80%
Private Equity	10.00%	6.65%
Specialty Credit/High Y	15.00%	2.60%
Core Bonds	13.50%	1.35%
Cash	1.00%	0.20%
Real Estate	5.00%	4.85%
Opportunistic	3.00%	2.97%
Real Return	<u>15.00%</u>	4.10%
	100.00%	

Discount Rate: The single discount rate of 5.68% for Non-hazardous was used to measure the total OPEB liability as of June 30, 2019. The single discount rate is based on the expected rate of return on OPEB plan investments of 6.25% and a municipal bond rate of 3.13% as reported in Fidelity Index's "20 Year Municipal GO AA Index" as of June 28, 2019. The following presents the District's proportionate share of the net OPEB liability if it were calculated using a discount rate 1% lower or 1% higher than the current discount rate:

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

CERS	Non-Hazardous	
1% Decrease (4.68%)	\$	2,516,834
Current Discount Rate (5.68%)	\$	1,878,811
1% Increase (6.68%)	\$	1,353,123

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB), CONCLUDED

Healthcare Trend Rate: The initial trend rate for participants under 65 years of age starts at 7.25% at January 1, 2019 and gradually decreases to an ultimate trend rate of 4.05% over a period of 13 years. For those over 65 years of age the trend rate starts at 5.10% at January 1, 2019 and gradually decreases to an ultimate trend rate of 4.05% over a period of 11 years. The following table presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rate:

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate

CERS	<u>Non-Hazardous</u>	
1% Decrease	\$	1,397,281
Current Healthcare Cost Trend Rate	\$	1,878,811
1% Increase	\$	2,462,723

OPEB Plan Fiduciary Net Position: Detailed information about the Plan's fiduciary net position is available in the separately issued KRS financial statements.

10. COMMITMENTS AND CONTINGENCIES

The District receives funding from Federal, State, and Local government agencies and private contributions. These funds are to be used for designated purposes only. For government agencygrants, if, based on the grantor's review of the program, the grant funds are considered to have been used for an unintended purpose, the grantors may request a refund of monies advanced or refuse to reimburse the District for its disbursements. The amount of such future refunds and un-reimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

11. LAKE CUMBERLAND AREA DEVELOPMENT DISTRICT PDS

The District provides fiscal management services to the Lake Cumberland ADD Participant Directed Services (PDS) program as a fiscal agent. The District operates the PDS program for the Cabinet for Health and Family Services, Department of Aging and Independent Living (DAIL). Waiver clients have the option to choose PDS at any time.

The District serves as the fiscal agent for the client and as a support broker. As clients opt for PDS, Medicaid reimbursement pays funds based on services provided. These funds reimburse payment for services on behalf of the client. Throughout the year, DAIL reassesses the PDS program funding. Funds for each ADD are realigned and/or increased in accordance with the client data. In addition to advances, as client services are rendered, Medicaid is billed and the funds are paid to the PDS program. The PDS program then pays the District for its administrative responsibilities. During the year ended June 30, 2020 the District received \$720,761 from the PDS program for administration and the District was owed \$287,299 by the PDS program.

12. COST ALLOCATION PLAN

Lake Cumberland Area Development District is required by the Department of Local Government, to operate under a cost allocation plan that conforms with 2 CFR Part 225 (OMB Circular A-87). A summary of the cost allocation plan begins on page 39. The District is in conformity with 2 CFR Part 225.

13. TRANSFER OF FUNDS

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other finances sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Payments made from the general fund checking account, which may or may not have the liability for the expenditure, may cause a receivable in the general fund and a payable from the fund having the lability to pay the expenditure at such time. All interfund receivables and payables have been eliminated on the District-wide Statement of Net Position. The following transfers were made during the year.

From Fund	<u>To Fund</u>	<u>Purpose</u>	2	<u>Amount</u>
General	Special Revenue	Operations	\$	156,045

At June 30, 2020, interfund balances were as follows:

Receivable Fund	Payable Fund	Amount
General	Special Revenue	\$ 1,031,509

14. RISKS AND UNCERTAINTIES

March, 2020, the World Health Organization declared the global novel coronavirus disease (COVID-19) outbreak a pandemic. Consequently, governments have encouraged self-isolation to curtail the spread. Many industries are experiencing disruptions and the District's operations could be adversely affected, but the impact is not known as this point. Accordingly, management believes that a material impact on the District's financial position and results of future operations is reasonably possible.

15. SUBSEQUENT EVENTS

The District has evaluated and considered the need to recognize or disclose subsequent events through November 11, 2020, which represents the date that these financial statements were available to be issued.

On August 11, 2020, the District received \$538,855 from First National Bank under the Small Business Administration's Paycheck Protection Program. Pursuant to the program, all or a portion of the loan may be forgiven if the borrower uses the proceeds of the loan for its payroll costs and other expenses in accordance with the requirements of the program.

16. BEGINNING FUND BALANCE

As described in Note 1 to the financial statements, the District changed reporting models during the year ended June 30, 2020. This change in reporting model requires the use of fund financial statements that are presented on the modified accrual basis of accounting. The following table reconciles the District's net position as of June 30, 2019 to the beginning governmental funds – fund balance:

Total net position, as of June 30, 2019	\$	(1,526,445)
Less: business-type activities fund balance as of June 30, 2019		(2,259,048)
Add: long-term liablities and related pension and OPEB deferred inflows/outflows		8,140,804
Add: long-term liablities accrued leave		243,223
Beginning fund balance - governmental funds	\$	4,598,534

REQUIRED SUPPLEMENTARY INFORMATION

LAKE CUMBERLAND AREA DEVELOPMENT DISTRICT STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE, BUDGET AND ACTUAL – GENERAL FUND For the Year Ended, June 30, 2020

LAKE CUMBERLAND AREA DEVELOPMENT DISTRICT COST ALLOCATION POLICY For the Year Ended June 30, 2020

All funds expended by the Lake Cumberland Area Development District (the District) are charged either to a specific grant and/or program element as a Direct Charge or spread to all grants and/or program elements as a shared (indirect) cost in conformity with 2 CFR Part 225, (OMB Circular A-87). Direct charges are defined as those that can be identified specifically with a particular cost objective. Shared (indirect) costs are those incurred for a common or joint purposes benefiting more than one grant and/or program element. Below is a listing of direct and shared costs as they are charged by the District.

Direct/Shared Costs

- 1. **Salary** Salaries of all professional employees are charged as direct costs to the grants and/or program elements in which their work is attributable. These charges are based on time sheets submitted by all employees. The Executive Director, fiscal officer and any employee whose time is fragmented between many elements are charged in part or in whole as direct or shared costs.
- 2. Employee Burden, Fringe Benefits, Sick and Holiday Leave All employee burden which can be specifically related to an employee whose salary is charged as a direct cost, is allocated proportionately to direct salaries as a direct cost. Similarly, the employee burden of those persons whose salary is charged as a shared cost is allocated as a shared cost.
- 3. **Consultant Contracts and Contractual Services** Contracts whose content can be directly attributed to a specific grant and/or program element are charged as direct costs to those programs. Other contracts, such as for public information or secretarial services, whose content can be directly attributed to a specific grant and/or program element are charged as direct costs to those programs. Other contracts, such as for public information or secretarial services whose content cannot be directly attributed to a specific program task, are charged as shared costs.
- 4. **Printing** Outside printing costs which are readily identifiable and attributable to documents within a specific grant and/or work element are charged as direct costs. Miscellaneous printing costs are charged as shared costs.
- 5. **Travel** All travel costs, which are directly attributable to an employee whose salary is charged as a direct cost is also charged as direct cost. All other travel costs, for Staff and Board, are charged as shared costs. Staff travel costs are allocated to grants and/or program elements accordingly to the total time spent by an employee on a specific program element during the month in which the travel occurred.
- 6. **Audit Fees** General audit fees are charged as a shared cost. Specific program audit fees are charged as a direct cost.
- 7. **Building Rental** Building rental and the associated utilities costs are charged as shared costs except for the Kentucky Career Centers that house the WIA counselors and case managers and local senior citizens centers. Costs associated with those particular buildings are charged as direct costs to the WIOA and Aging grants.

LAKE CUMBERLAND AREA DEVELOPMENT DISTRICT COST ALLOCATION POLICY For the Year Ended June 30, 2020

- 8. **Equipment Rental/Purchase** The purchase of equipment and/or any depreciation or rental charge on purchased equipment is charged, if allowable, as a direct cost to the applicable program element(s). All other equipment purchases and/or depreciation, or rental is to be charged as a shared cost.
- 9. **Communications -** All communication costs, including telephone, postage and the like, are charged as shared costs unless directly attributable to a program.
- 10. **Classified Advertising** All classified advertising costs are charged as direct costs to the applicable program element(s). General classified advertising costs are charged as shared costs.

All additional costs which are not identified above are charged as shared costs unless otherwise indicated by the Department for Local Government or are prohibited.

Shown below is LCADD's indirect cost allocation percentage for the year ended June 30, 2020

A. General and Administrative - Shared Costs: Salaries \$ 413,298 Personnel burden 166,057 Leave time 33,605 Travel, staff and board 14,736 35,071 Equipment maintenance and rent Building rentals 125,672 Registration and meeting expense 11,718 Contractual services, audit and legal 45,684 Utilities and telephone 48,536 Janitorial expenses 23,214 Auto expense 55,135 Dues and memberships 7,129 Printing and publications 606 Supplies 21.933 Insurance 29,906 5,951 Postage Other 597 **Total Shared Costs** 1,038,848 \$ B. LAKE CUMBERLAND AREA DEVELOPMENT DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended June 30, 2020

RLF Grant Calculation of Federal Amount:

Balance of loans outstanding, June 30, 2020 Cash Balance at June 30, 2020	\$ 1,166,546 220,548
Administrative Expenses	 <u>19,238</u> 1,406,332
Federal Share of RLF	 68%
	\$ 956,306

Basis of Presentation:

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Lake Cumberland Area Development District under programs of the federal government for the year ended June 30, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Lake Cumberland Area Development District, it is not intended to and does not present the financial position, changes in net position or cash flows of Lake Cumberland Area Development District.

Summary of Significant Accounting Policies:

Expenditures reported on the schedule are reported on the accrual basis of accounting for proprietary funds and the modified accrual basis of accounting for governmental funds. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Indirect Cost Rate:

Lake Cumberland Area Development District did not elect to use the 10 percent *de minimis* indirect cost rate as allowed under the uniform guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Lake Cumberland Area Development District Russell Springs, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Lake Cumberland Area Development District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 11, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lake Cumberland Area Development District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lake Cumberland Area Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of Lake Cumberland Area Cumberland Area Development District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lake Cumberland Area Development District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Page 52

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors Lake Cumberland Area Development District Russell Springs, Kentucky

Report on Compliance for Each Major Federal Program

We have audited Lake Cumberland Area Development District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Lake Cumberland Area Development District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Lake Cumberland Area Development District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lake Cumberland Area Development District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Lake Cumberland Area Development District's compliance.

Opinion on Each Major Federal Program

In our opinion, Lake Cumberland Area Development District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of Lake Cumberland Area Development District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an

Page 54

opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
